

AMERICAN GOVERNOR

SELSYN REPLACEMENT KIT ***For Analog and Mechanical Actuators***

For those who want to replace their Selsyn remote monitoring with a universal 4-20mA system, American Governor offers a pre-engineered kit applicable to both analog and mechanical cabinet actuators. This kit is also recommended for interfacing these types of governors with supervisory control equipment.

Our Selsyn Replacement Kit replaces the existing Gate Position / Gate Limit Selsyn receiver with a dual-digital meter that fits in the same location. 4-20mA transmitters replace the Selsyn transmitters in the actuator cabinet. A 4-20mA Speed Adjustment transmitter and meter are available as an option.

Panel Meter

4-20mA Transmitter

Selsyn Replacement Kit includes:

- 4-20mA Transmitters with Mounting Brackets for:
 - Gate Limit
 - Speed Adjustment (option)
- 4 1/2" Square Control Room Meter with Faceplate for:
 - Dual Gate Position / Gate Limit Indication
 - Speed Adjustment Indication (option)
- Field Termination Box with:
 - Terminal blocks
 - Power supply
- Complete Installation Manual
 - Mounting instructions
 - Wiring diagram
 - Calibration procedure

American Governor is committed to supporting all your governors, regardless of manufacturer or model, with parts, field service, technical support, training and engineering for as long as you wish to keep them in service.
