

AMERICAN GOVERNOR

FOCUS CLASSES OFFER:

- **ADVANCED TRAINING ON SPECIFIC GOVERNOR TYPE**
- **SMALLER CLASS SIZES**
- **MORE HANDS-ON TIME**

FOCUS CLASS: WOODWARD GATESHAFT Two-Day Intensive Training Workshop

In response to customer requests for smaller factory training classes that concentrate on a single governor type, we are pleased to offer a Focus Class on the **Woodward Gateshaft Governor**. Whether you are an experienced governor mechanic or an apprentice technician, this two-day intensive workshop will enhance your knowledge of this governor type. Focus Classes feature **more hands-on time** and less classroom time, so are ideal for governor technicians who are responsible for tuning, adjusting and troubleshooting governors.

Our trainers have decades of experience building, calibrating and repairing Woodward governors, oil systems and auxiliaries, and our **Training and Repair Center** features working examples of a Woodward Gateshaft Governor and 20 Series Gear Pump. Our Dashpot Lab provides participants individualized hands-on training in the maintenance and adjustment of this key component. **Real-world problems** will be introduced into the governor, and attendees will be challenged as a group to find and correct them. These intensive troubleshooting sessions, combined with smaller class size, are what make Focus Classes so effective as a training tool for your maintenance crew.
