

AMERICAN GOVERNOR

GOVERNOR PUMP/MOTOR REFERENCE LIST

American Governor has the requisite skills and shop facilities to repair **any** type of governor oil pump. Over the last ten years our pump specialists have successfully completed over 100 pump/motor repairs – more than Woodward completed in over 130 years! Our Wisconsin Repair and Training Facility can take responsibility for everything from a basic XX Herringbone Gear Pump overhauls, to complex gear grinding and pocket repair, up to and including a 125HP motor rewind. We have even repaired pumps that were so damaged, the owner thought they were unrepairable. The reference list below is presented in chronological order.
